HOUSING OPTIONS/DEADLINE:

Housing will be assigned on a first come basis upon receiving applications. Please send your application as early as possible.

Choose one of three options for your living situation at Tecnológico de Monterrey:

Live with a host family. Affectionate and friendly families that participate in the Host Family Program welcome you with open arms and additional benefits:

- Discover the warmth and charm of a Mexican family
- Experience Mexican customs and authentic cuisine

- Practice your language skills on a daily basis

Live in a residence hall. Enjoy a global experience interacting with and living among students from Mexico and many other different nationalities. There are 16 residence halls open to men and women. However, none of them are co-ed. seven residence halls are on-campus and nine are off-campus, only a few blocks away. The buildings vary in their accommodations.

Live off campus. Tecnológico de Monterrey provides information about off-campus housing (upon request) as well as offering you assistance in understanding rental agreements, legal issues, etc.

Academic Programs:

The language of instruction can be English, Spanish or both.

In order to find more about academic options please visit our website www.studyinmexico.com.mx and select "Programs" button at the main menu.

Monterrey Campus offers 6 different academic options to suit your needs.

1. Spanish as a Second Language, Mexican Culture and Culture

To be internationally competitive, you need to, not only develop certain skills and behaviors, but also gain knowledge about specific cultures. With these culturally oriented courses you will not only learn to speak Spanish-the third most spoken language in the world- but also obtain an invaluable knowledge about Mexico's way of thinking and conducting business that will give you an edge in your career. Courses are offered in both Spanish and English. Take these courses as part of your academic load while studying in Monterrey. Mix them with other courses from your specialty and get the most out of your experience in Mexico.

2. Certificate Programs

Tecnológico de Monterrey, Monterrey Campus offers undergraduate certificates in a variety of fields. A certificate is an academic specialization in a certain area of study. Currently, there are 5 certificates available to international students. The courses offered under the certificate programs are classes that Mexican students also take as part of their specializations, so as an international student you will be interacting with these and other international students in the classroom.

Certificates:

CERTIFICATE IN INTERNATIONAL BUSINESS

CERTIFICATE IN LATINAMERICAN ART

CERTIFICATE IN LATINAMERICAN STUDIES

CERTIFICATE IN AUDIOVISUAL MEDIA PRODUCTION

CERTIFICATE IN DEVELOPMENT OF APPS IN EMERGING DEVICES

3. Internship Program and Research Projects

Experience the business world first-hand with one of the many jobs opportunities offered by Tecnológico de Monterrey at different partner companies in Monterrey. Take the opportunity to maximize your learning and develop know-how by putting your academic skills into practice in real-life projects. Some of the projects may require individual participation and others could be developed in groups of students as a consulting team involving a multidisciplinary group.

4. Volunteer Social Work

Take the challenge and get involved as a student volunteer in one of our many different community projects. Through your experiences with the community, you will learn about leadership, personal advancement, and the planning of events.

5. Regular University Courses Taught in English and/or Spanish

At Tecnológico de Monterrey you can attend any of our regular courses taught in English or Spanish in any of the academic fields available at Monterrey Campus and have the credits applied to your college degree back home.

Special Requirements

Some of our majors require our Mexican students to take classes in another language to study in the language you feel more comfortable and meet Mexican and international students from around the world.

For courses taught in English:

If you are a non-native English speaker, you will need to meet one of the following requirements:

-TOEFL (Test of English as a Foreign Language): At least 550 points on the Paper-Based Test (PBT) or 313 points on the Computer-Based Test (CBT)

- IELTS (International English Language Testing System): At least 6.5 points

- A letter from a certified source (English teacher or language instructor) that states that you have sufficient knowledge of the language to take courses in English

For courses taught in Spanish:

If you are a non-native Spanish speaker, you will need to take Tec de Monterrey's on-line Spanish Placement Test to assess your level of Spanish. You will be required to score an advanced level to be able to take classes in Spanish.

All foreign students are allowed to attend our courses, according to their Spanish language skills. If they show evidence of having skills in the location test, they may enroll in any regular course taught in Spanish. In case Spanish skills are low you have the option of taking regular courses taught in English and Spanish Language courses.

Some courses are taught both in Spanish and English, but they are offered according to the demand. Therefore, foreign students interested in taking any of these should check before enrolling whether they are available or not. Available regular and special courses are listed in the Academic Brochure issued by the International Programs Department.

In the case of the United States, our 8-unit semester courses are equivalent to 3 credits in the U.S

COSTS AND EXPENSES (PESOS AND U.S. CURRENCY):

Exchange students:

Those students that will participate in one of Tecnológico de Monterrey's programs by applying through an existing exchange agreement between the student's home university and Tecnológico de Monterrey. The student is required to pay tuition to his/her home university.

VISA PROCESS:

Obtaining your Visa

To study in Mexico you require a visa. This visa will vary depending on the time planning to study in Mexico and on the nationality of the student.

- For students coming to study for a semester or less (180 days or less), an FMM visa for non-lucrative activities will be required.
- For students coming to study for more than a semester or a whole year (181 days or more), a temporary resident student visa will be required

At your arrival, you will also receive all the necessary help to make sure you have a legal status while studying in Mexico; however, it is very important that, as an international student, you bring the following documents with you to Mexico.

Valid Passport

Proof of financial solvency (such as credit or debit card statements for the cards you will use while in Mexico).

Academic Information:

1. Academic load: The maximum allowed academic load for both undergraduate and graduate students is 48 units (18 credits) for the January - May and August - December semester terms. Notwithstanding, we recommend you not to exceed 32-40 units (13-15 credits), whereas foreign students need time for other activities that will enrich their international experience.

2. Evaluation System: The Academic Administration Department provides that there will be at least three partial and one final student progress evaluation. Each teacher will determine which other evaluations are required in his/her course and the dates when they will take place. Progress evaluations are done in different fashions:

- Written tests in the classroom (multiple choice, true or false, essay, etc.).
- Individual or group classroom presentations
- Virtual tests (www or Blackboard).
- Individual or group research.

In each case, the teacher will state the scoring criteria (content, size, format, type of presentation, etc.) in advance.

The grading scale is 1 -100, and the minimum grade to earn credits is an average of 70 at the end of the term. For the purpose of allowing foreign students to convert these grades to the scale used at home, two months after the course is completed a full transcript will be mailed by Tecnológico de Monterrey to their school detailing the names of the assignments and grades earned, with a letter describing the grading system used at Tecnológico de Monterrey.

AREAS OF STUDY:

Agriculture and Food Industry
Architecture
Social Sciences and Humanities
Communication and Journalism
Law
